

## MYSTERY MAY BE SOLVED TODAY

McNamara Go Before Grand  
Jury Expected to Tell  
Who Is "Higher Up"

### VALUABLE INFORMATION

Not Attorney Says Brothers  
Have Talked Receive  
Sentences This Morning

SAN ANGELES, Dec. 4.—James B. John J. McNamara will appear before the federal grand jury here tomorrow morning and tell their stories of what happened before they were sentenced by a federal court here. The declaration was made here late tonight on a peacemaker's authority. An announcement afforded an explanation of the messenger's confession on late today by James B. McNamara in the jail corridor in the presence of his attorneys, the state, his brother, John J. McNamara, in his "Jim" explained how he blew the Los Angeles Times, October 1, causing a loss of 21 lives. A strict attorney John D. Fredericks stated tonight that in addition to written confession, both brothers furnished information of signal to the state.

It is practically assured that when they appear tomorrow before Judge Wall the district attorney will demand such leniency as the court see fit to bestow.

To Grand Jury Next.  
A moment sentence is pronounced, ending to plans completed tonight, brothers will be served with summons to appear before the federal grand jury.

A decision reached by the McNamara is regarded here as of vast importance to the whole country. If it is a significant dynamiting conspiracy, which is what the grand jury is to decide about the state to be, it is a conspiracy that has been believed the will of federal grand jury here and in Indianapolis will be relatively simple. The outcome of the trial is urged message received by District Attorney Fredericks from Walter Drew, counsel for the National Erectors' association, as leading to a true solution of the troubles which have vexed one of the labor world, and which set for the state believe now to be fair way of being eradicated.

## GES CONFESSION TO SAVE INNOCENT

Assn. Believes Leniency  
Will Help State

NEW YORK, Dec. 4.—In behalf of the National Erectors' association, it employed William J. Burns to help the perpetrators of the Los Angeles Times outrages. Walter Drew, counsel, issued a statement here this morning that the McNamara case is a frank and full confession. "I say, among other things, I doubt the sincerity of laboring extreme punishment, and in so saying that those who take this side have an ulterior motive." Drew issued the statement in the form of a telegram to J. B. Fredericks, district attorney at San Angeles. The statement reads: "The many statements from leaders repudiating the McNamara case and demanding the infliction of the extreme penalty of law. As you know, I am counsel for a group of employers who have among the chief sufferers at the hands of these men, and who participate in the same outrages in which they participate. I deem it my duty to say, in order that in your discretion may advise the court."

Does Not Ask Death.

First—No human life has been lost by any other explosion traced to these men, nor do I know of such explosions which was actually planned with the purpose of taking life, though in some instances a guard of such possible consequences was shown.

Second—The National Erectors' association does not join in the demand for the death penalty for the younger McNamara, believing him the victim of the tool of others, and his actions the result of the influence of the tool of others, and his actions the result of the influence of the tool of others. I deem it my duty to say, in order that in your discretion may advise the court."

## ROCKEFELLERS OUT OF STANDARD OIL

The Reorganization Eliminates  
Their Names as Officers  
and Directors

NEW YORK, Dec. 4.—John D. Rockefeller terminated his career as head of the Standard Oil company today. Not a Rockefeller remains among the officers and directors of the Standard Oil company of New Jersey, chief of the oil corporations, which was the holding company up to the time of the recent dissolution of the great combine. The Rockefeller name has been prominent in the oil business, stepped behind the scenes today. John D. Archbold, one of the few members of the "old guard" to remain, became president of the Standard Oil company of New Jersey. Today's action affects not only the New Jersey company, but a number of other corporations in the Standard Oil group. Although the list of officers and directors is virtually made over, the active management will be changed but little.

Shifted Work to Archbold.  
Mr. Rockefeller for nearly 10 years has been only nominally associated with Standard Oil. He visited 26 Broadway only about once a year, and his stays usually were limited to a few minutes. After the death of H. H. Rogers, Mr. Rockefeller's visits became more frequent for a time until gradually responsibility was shifted to Mr. Archbold.

John A. Moffett, who was elected first vice president of the reorganized New Jersey company, is one of the best known of the comparatively new men in the Standard Oil company. He was president of the Standard Oil company of Indiana when Judge Landis imposed his \$250,000 fine upon that company. W. C. Taggart, elected second vice president, is under 40, but long ago acquired a reputation for marked ability in the oil trade. He was an independent refiner in upper New York state when he sold out to Standard Oil, and took a position as head of its export department, which is said to have developed enormously under his management.

From an unofficial source it is learned that the Standard Oil company of New Jersey will not change its present capitalization of \$100,000,000.

## U. S. EXPRESS CO., LOSER \$1,000,000 IN A FIRE

Principal Plant for Service of New  
York City Destroyed 100 Horses  
and Many Wagons Burned

JERSEY CITY, N. J., Dec. 4.—The principal plant of the United States Express company for the service of New York city and the vicinity was swept by fire early today and practically the whole delivery equipment, consisting of 400 horses and several hundred wagons, was destroyed. The loss is estimated at \$1,000,000.

Fred Ockray, the night watchman who gave the alarm, could not be found after the flames subsided and he probably lost his life trying to rescue some of the horses.

The company lost all its books and records kept since the business was established.

TURKEY FAVORS PERSIA

CONSTANTINOPLE, Dec. 4.—The Porte has appealed to the powers in favor of respecting the independence of Persia.

## INSISTS GOMPERS IS FOOLING LABOR

STRONG STATEMENTS BY  
DETECTIVE BURNS

Chief Leader's Utterances Buncombe Says Union Gave  
McNamara \$1,000 Month

CLEVELAND, Dec. 4.—It is perfectly true that the executive council of the iron workers union voted a monthly fund of \$1,000 to be paid to John J. McNamara. There is evidence to substantiate the charge that this money was being used for the purpose of paying it to James J. McNamara and other McNamara and that it was used by them in their dynamiting operations.

That was the statement of Detective William J. Burns, who arrived here tonight from Akron.

That he was going after the men higher up and a criticism of President Samuel Gompers of the American Federation of Labor were other points emphasized by Burns.

The detective spent the day in Akron, where he investigated the Burger Iron works explosion of July, 1910.

"We are going after the men back of the McNamara," said Mr. Burns, "and the investigation will be pressed energetically till we bring to justice the men who are really responsible for the dynamiting outrages over the country."

"I have lately come from Indianapolis where I conferred with United States District Attorney Miller. Enough evidence will be brought before the grand jury at its meeting there December 14 to cause a number of indictments."

Insists Gompers Not Deceived.  
"When Samuel Gompers tells the people that he was deceived in the McNamara case he is uttering a lot of drivel and buncombe. It is Gompers who is fooling organized labor, for he knew the McNamara were guilty, and after we had arrested them he sat in conference with them."

Mr. Burns read with interest the day's developments in Los Angeles, but said he had no comment to make on the added details of the Bain confession or the rumor that arrest of one of the counsel for the McNamara was impending. He also had nothing to say to the reported developments indicating wholesale attempts at jury bribing.

After a day's work in Akron, Mr. Burns said he would be in New York tomorrow to confer with the federal grand jury there to continue the investigation. He said the investigation would be pushed in New York, Boston, Chicago, Indianapolis, Cleveland and elsewhere, and would be thorough.

He declined to give out any details as to his present or future plans, simply saying the dragnet would be drawn tightly, and was expected to enmesh the ring leaders of the dynamiting outrages.

"Have you any fears of personal violence?" Mr. Burns was asked.

"None in the least," he said. "Organized labor is my friend."

## BOOKS AND RECORDS OPEN TO PROBERS, SAYS GOMPERS

NEW YORK, Dec. 4.—Samuel Gompers was asked tonight to what extent the American Federation of Labor, of which he is president, would aid in further investigation of labor troubles by the government.

"Our books and such records as we have will be open to the federal grand jury to an investigating committee or to any responsible person of decent character and integrity. We have nothing to withhold," he replied.

"Would this offer include the books and records showing money received as to paid out and for what purpose?" a reporter asked.

Mr. Gompers replied with some heat. "I tried to make my statement as specific and accurate as possible."

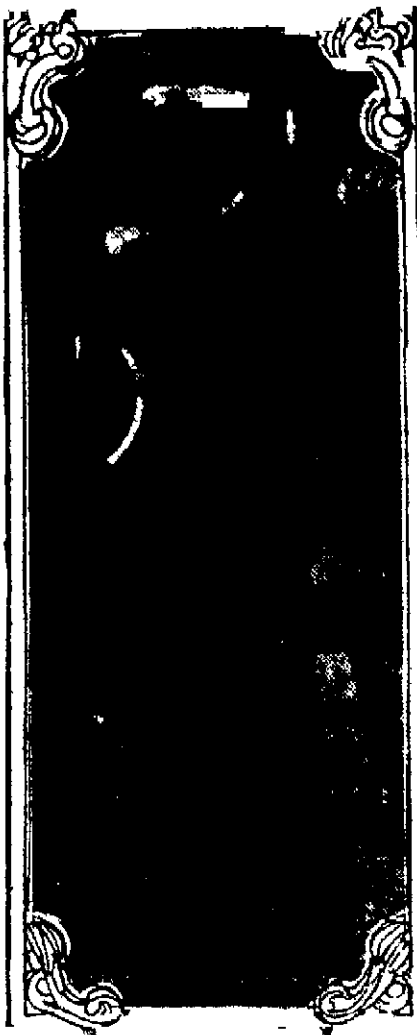

Asked if he knew whether he was under surveillance, Mr. Gompers answered: "I know I am. Two of Burns' men have been following me since my arrival in New York last Saturday night. I go and come openly and I have nothing to conceal. I intend to remain here until Tuesday and then go to Washington."

Mr. Gompers made a positive denial to a statement credited to Mr. Burns that Clarence Darrow was present at the conference in Indianapolis in June.

"It is absolutely false," he declared. "There were 40 labor leaders from all over the country present to discuss plans for raising money for the defense of the McNamara. No intimation of their guilt was given out at that meeting."

The labor leader indignantly asserted that he did not feel called upon to reply, when a reporter asked him suggestively if he had any expectation of giving up the leadership of the American Federation in the near future.

He was later unanimously reelected president of the American Federation of Labor.

Dr. Paul F. Gans, who recently arrived in the United States as the emperor of Germany's informal representative to see President Taft and Secretary of the Navy Meyer to assist their aid in supplying two warships to patrol the course that he expects to take in crossing the Atlantic ocean in his giant dirigible balloon, the Schuchard which will leave Tenerife (Canary island), and follow the course taken by Christopher Columbus to the Barbadoes, some time this month. A part of the course will be patrolled by two German warships. Dr. Gans is the president of the Transatlantic flight expedition, and is one of the most distinguished government aeronauts and authorities in Germany. He will share the command of the giant dirigible with Joseph Brucker, an American. The airship is 250 feet long and holds almost 500,000 cubic feet of hydrogen gas.

## OPENS WAY FOR PROSECUTIONS

UNOVERTAKEN COAL LANDS  
UNDER STATE CONTROL

Supreme Court Reverses Act  
of U. S. Circuit Court That  
Quashed Indictment

WASHINGTON, Dec. 4.—The supreme court of the United States today opened the way for the federal government to prosecute coal land frauds in Alaska by holding that the general coal land laws of the United States, which forbid persons or associations making more than one entry apply to the unsurveyed coal regions of Alaska.

The immediate result of this holding was the reversal of the action of the United States circuit court for western Washington in quashing, as invalid, the indictments against Charles F. Munday and Archie W. Shields, on charges of conspiring to defraud the government out of Alaska coal lands valued at \$10,000,000. The way is now opened for their trial on this charge.

Justice Lurton rendered the unanimous opinion of the court. He considered the argument of the defendants that the act of congress in 1904 superseded the general laws so far as the unsurveyed lands of Alaska were concerned.

"There occurs to us no reason for assuming that congress intended to abandon the policy of keeping open the right of every citizen to enter one tract and no more of the unsurveyed coal lands of Alaska that would not lead also to the abandonment of the policy as respects coal lands that had been surveyed," said the court. "An intention to depart from a uniform policy so long enforced in regard to coal lands should not be imputed to congress unless the act of 1904 admits of no other construction."

Justice Lurton then proceeded to show that the act of 1904 did admit of another construction, namely, to extend the general coal land entry laws, which were then applicable only to surveyed lands, to unsurveyed lands.

"The legislation read in the light of the situation and of the uniform policy, which had so long prevailed," Justice Lurton concluded, "of prohibiting more than one entry to one person makes it plain that congress did not intend to except the unsurveyed coal lands of Alaska from the operation of the restrictions that attached to the sale of the surveyed coal lands in Alaska and elsewhere."

## National Irrigation Congress Opens Today

CHICAGO, Dec. 4.—The National Irrigation congress will hold its nineteenth annual session here, beginning tomorrow and will continue until Saturday. Among the speakers are said to be Clifford Pinchot, Dr. H. W. Wiley, Senator William E. Borah of Idaho and delegates from foreign countries.

Secretary of the Interior Walter L. Fisher, who was to come sent word he probably would not be able to attend.

ANNAPOLIS, Md., Dec. 4.—After assaulting his wife with a hatchet and inflicting wounds on her head which may prove fatal, Capt. Albert Tyler, a resident of Eastport, near here, went to the home of his daughter and non-in-law, Mr. and Mrs. William Robinson and shot both. They are seriously wounded. Domestic trouble is given as the cause.

## OUTCOME IS IN WOMEN'S HANDS

WILL CONTROL LOS ANGELES  
GELS ELECTION

But Weather Adds to Tangled  
City Political Situation  
Socialists Active

LOS ANGELES, Dec. 4.—Unsettled weather with a prediction of rain for election day complicated tonight the tangled city political situation with which approximately 18,000 voters will be confronted tomorrow. Socialism or a continuation of the present political regime, prohibition or restricted liquor, the main issues, but the contest attending the startlingly abrupt end of the McNamara trial combined with uncertainty as to how the newly enfranchised women will vote have befogged the outcome.

The only certainty is that the women with their 35,000 votes will have the decision. They will decide whether Los Angeles shall have as its next mayor John Harriman, Socialist, and former attorney for the McNamara brothers or George Alexander, the incumbent and representative of the good government forces who invoked the recall for the first time and ousted from office Mayor Arthur Harper and a Democratic administration three years ago. The women's vote has been wooed assiduously by both sides throughout.

Socialists Want Rain.  
The possibility of wet feet may have an important bearing on the outcome. The Harriman adherents are hoping for rain. A storm would be good Socialist weather, they declare.

While the good government workers rested today and this evening, after a Sunday of absolute inaction, the Socialists followed the big rally of yesterday with meetings in 25 halls tonight.

Two to one was offered tonight that Alexander would be selected and little of this money was placed.

But betting odds on the claims of the other side did not affect the enthusiasm of the Socialists. Alexander Irvine, manager of the Harriman campaign, declared he was convinced that his ticket would poll 19,000 majority over the good government candidates.

Special Policemen on Duty.  
"We have distributed 800,000 pieces of literature in the last few days," said Irvine. "We have had 50 speakers in the city. I expect Alexander will win."

Edward W. Lee, chairman of the citizens committee, which was brought into being in the pamphlet that followed the primary on October 31 when Harriman and his Socialist adherents ticketed the good government candidates, likewise expressed certainty that the men and women voters would sweep Alexander back into office by a majority which he refused to estimate. He added that workingmen, who had contributed to the McNamara defense fund and formerly supported Harriman would come over to Alexander in large numbers.

A force of men under Chief of Police Sebastian and Captain W. A. Hamoull have been detailed for election day duty.

## MAY ADVANCE FUNDS TO NEEDY FARMERS

The first step probably that will be taken in offering relief to the starving and freezing farmers of eastern Colorado, will be the establishing of a fund which will be loaned to the farmers in a sum large enough to carry them until next spring. Another sum will probably be raised for the relief of those who have no property.

A committee from the Associated Charities, in addition to a number of business men, will meet this afternoon at the Associated Charities headquarters to talk over the situation, and to discuss the report of Agent W. F. Worcester.

It is the understanding that the members of the committee will be asked to advance a sum to establish the fund. Then the money will be placed in the hands of an agent who will go into the districts where relief is needed and furnish the money to those wanting a loan.

"While it is not definitely decided that this will be the policy adopted," said a member of the committee yesterday, "I heartily approve of it. The people of eastern Colorado have faith in the country, and there are very few who want to leave their lands. Most of them are about ready to take out final papers, and the loans would prove better than voluntary donations, as it would hold them through the rest of the winter and there would be no chances for contests."

If this policy is adopted, it is believed the situation can be handled by local people, and there would be little need for a state-wide campaign.

## DENVER MINT TO COIN NICKELS HEREAFTER

WASHINGTON, Dec. 4.—For the first time in its history the Denver mint will begin the coinage of nickels in January. Previously the 5-cent pieces circulated on the Pacific slope have been shipped as the mint has been known here today.

That Ambassador Guild might be successful in its undertaking was predicted today.

Mrs. J. Borden Harriman, one of New York's wealthiest and best known society women who has interested herself in bettering the conditions of the poor. At present she is trying to improve the budget committee of the board of estimate of the city of New York the urgent necessity of establishing numerous milk stations throughout the city to save the lives of infants. Mrs. Harriman is also an active member of many charitable institutions, and has helped to ameliorate the sufferings of poor consumptives, by aiding financially, tuberculosis sanatoriums.

## SEEKS TO ENJOIN CASH REGISTER CO.

Government Alleges National  
Company Conspires to  
Restrain Trade

CINCINNATI, Dec. 4.—Suit was filed in the United States circuit court here today against the National Cash Register company of Dayton, O., charging that the company is in a conspiracy to restrain of trade and asking that it be enjoined from further carrying on illegal practices.

The government does not seek to destroy the National Cash Register company, as a corporation, but to interfere with the legitimate business of the company, but asks that it be prohibited from selling cash registers and other registering devices in a manner that would prevent competition.

The suit was filed by United States District Attorney McPherson, who was assisted by Attorney O. E. Harrison, representing the interstate commerce commission.

The government in its petition, complains that the individual defendants, acting through the instrumentality of the corporation are seeking to eliminate other manufacturers and dealers engaged in the business of making and selling cash registers and other registering devices.

It is further charged that the defendants have waged vicious wars of extermination against other competitors and have driven them out of business securing thereby about 95 per cent of the cash register business.

One of the main charges contained in the petition is that the company sold cash registers below the cost of production in various instances where competition was rife.

## TO IMPROVE MESA VERDE

DENVER, Dec. 4.—The department of the interior purposes to spend \$41,610 on the Mesa Verde National park during the fiscal year ending June 30, 1912, if the amount requested by the secretary of the interior is appropriated by congress. This is an increase of \$34,115 over the appropriation for the current fiscal year.

## U. S. TAKES UP PASSPORT QUESTION WITH RUSSIA

President Awaits Report From Ambassador Guild at St. Petersburg.  
May Come Today

WASHINGTON, D. C., Dec. 4.—After months of uncertainty the United States government has taken up with the Russian government at St. Petersburg the question of passports for American Jews in Russia and the obligations of Russia embodied in the much discussed treaty of 1832.

President Taft is awaiting a report from American Ambassador Guild at St. Petersburg, which if it comes tomorrow, will be discussed by the cabinet at its remaining sessions. It does not indicate a willingness upon the part of the Russian government to consider the question, Mr. Taft may recommend legislation that would accomplish the end desired.

Unaware of the action of the administration, Representatives Sulzer of New York and Gardner of Texas today introduced in congress resolutions providing for the abrogation of the treaty of 1832. Mr. Sulzer said hearing by his committee—that on foreign affairs—would begin next week.

The fact that negotiations have begun in St. Petersburg by the United States was carefully concealed and only became known here today.

That Ambassador Guild might be successful in his undertaking was predicted today.

## INVESTIGATION IS DEMAND OF MANN

Asks House to Name Committee  
to Probe the Antitrust  
League and Newspaper

## LITTLETON ATTACKS MARTIN

New York Representative Iv.  
Heartily Applauded as Defending  
His Integrity

WASHINGTON, Dec. 4.—An investigation of the operations of the so-called Antitrust league was demanded by Republican Leader Mann, in his house today, after a remarkable speech by Representative Martin W. Littleton of New York who charged Henry B. Martin, secretary of the league with attempting to defame him.

It was the climax of a dispute between Mr. Littleton and Chairman Stanley of the house steel corporation investigation committee.

Round after round of appeals pronounced Mr. Littleton's defense of his integrity and Democrats and Republicans assured him of their confidence.

Meanwhile, Mr. Martin had handed to Speaker Clark a petition asking that Mr. Littleton be impeached on the ground that he had "cooperated and conspired with heads of the trust" to prevent a continuous of the steel inquiry. This memorial, however, was not presented to the house.

Mr. Littleton assailed Martin and others as being in conspiracy to use the steel investigating committee to depress the value of stocks in Wall street.

Mann's Resolution.  
Mr. Mann's resolution, which was referred to the rules committee, which expects to take early action on it, follows:

"Whereas Hon. Martin W. Littleton, has, on his responsibility as a member of this house, acting on behalf of the trust in the investigation of the United States Steel corporation, he has been subject to a blackmailing attack in a New York newspaper, made on behalf of the so-called Antitrust league.

Resolved That a committee of seven be appointed to investigate the circumstances of the said newspaper attack, the relations of the so-called Antitrust league thereto and activities of the said league, so far as they may be designed to affect the action of the house or any committee thereof, and that the committee have authority to send for persons and papers to take testimony at any time in Washington and other places."

"I purpose to fight to the death the defamation of public men in this country," declared Mr. Littleton.

Chairman Stanley of the steel investigating committee remained silent during the speech of the New York member. The latter in no way attacked the committee, but said that Mr. Martin had attacked himself to the committee as a "voluntary employee" and had misrepresented his connection with it.

## CONDEMN GOVERNOR AND SHERIFF CAPP

Coal Operators Northern Colo  
r-to Field Take Steps to  
Get U. S. Troops

DENVER, Dec. 4.—At a meeting today of a dozen of the larger coal operators in the northern Colorado fields, resolutions were adopted condemning Governor Shafroth, Sheriff Capp of Boulder county and other officials of that county and of the smaller towns in the coal fields for "squeezing in and encouraging, by their refusal to exercise their authority, the labor troubles that have existed since the miners went on strike in March a year ago. The resolutions affirm that the miners are deprived of their rights as citizens to go where they please without danger of mob violence, and that state and county officials, before mentioned are largely to blame. The operators also state that they have unalterably determined to have no dealings with the coal miners organizations and that the "open shop" principle will prevail hereafter in the northern field."

Attorneys for the coal operators are at work on a petition to be presented to the federal court here asking for an injunction to restrain the strikers from interfering with the men now employed in the mines or the property of the mining companies. It is expected that the application will be filed tomorrow. The hope of the operators is that if Governor Shafroth will not send militia to the coal camps United States troops would be called out in the event of failure of the United States marshal's office to control the situation.

Governor Shafroth says that he has sent emissaries into the northern coal camps to investigate and report to him actual conditions.

## A HEALTHY, HAPPY OLD AGE.

May be promoted by those who gently cleanse the system, now and then, when in need of a laxative remedy, by taking a despatchful of the ever refreshing, wholesome and truly beneficial Syrup of Figs and Elixir of Senna, which is the only family laxative generally approved by the most eminent physicians, because it acts in a natural, strengthening way and warms and tones up the internal organs without weakening them. It is equally beneficial for the very young and the middle aged, as it is always efficient and free from all harmful ingredients. To get its beneficial effects it is always necessary to buy the genuine, bearing the name of the Company California Fig Syrup Co.—plainly printed on the front of every package.

## YUCATAN INSURRECTION IS BECOMING SERIOUS

MEXICO CITY, Dec. 4.—Revolutions in Yucatan, Tamaulipas and San Luis Potosi are disturbing the Mexican government. Vice President Plinio Sanchez, a citizen of Yucatan, declares the insurrection in that state is due to Delio Moreno Canon, defeated candidate for governor. Canon is in New Orleans.

In Tamaulipas the rebels are led by Emilio Acosta, who recently escaped after being arrested in Vera Cruz. The San Luis Potosi band apparently has no leader. At the department of the interior today it was admitted that the Yucatan revolt is a revolution in character, the known leader of the Tamaulipas insurrection is a revolutionist, while the rebels in San Luis Potosi are sacking haciendas to the cry of "Viva Reyes". The rebellion in Yucatan is almost statewide according to dispatches received today by the government.

So serious is the situation regarded that a gunboat was ordered today to proceed from Vera Cruz to Progreso with a detachment of troops and a full supply of ammunition. A dispatch tonight from Merida, the capital of Yucatan, says that communication with the interior is hampered the wires having been cut, but reports brought to the capital by couriers indicate that the rising which began last week is extending rapidly throughout the state and into Campeche. Numerous haciendas have been sacked within 48 hours.

## TO MEET GOVERNORS IN ST. PAUL DECEMBER 16

Northwestern Congressmen and Senators Asked to Meet Special Train When It Arrives

ST. PAUL, Dec. 4.—When the western governors, now on a tour of the east, return to St. Paul, December 16, they will be given a reception. This was decided today by the business men who gave the banquet to the governors on the night of the departure of their special train. The reception will be in the state capital.

Word has been received that the governors have sent invitations to every northwestern congressman and senators to meet them in St. Paul for a western congress, December 16 to 18.

## CHARGES U. S. WITH AIDING REVOLUTION

NEW ORLEANS, La., Dec. 4.—That the United States state department encouraged the successful Bonilla revolution in Honduras last December as a means of trying to force the Honduran government to sign the Morgan loan agreement is one of the many sensational declarations made by Juan E. Paredes former special financial minister from Honduras to the United States, in a 200-page booklet issued by him here today for presentation to senators and congressmen at Washington.

## BOMB THROWN INTO MOSQUE KILLING DOZEN PERSONS

CONSTANTINOPLE, Dec. 4.—A bomb was thrown today in a mosque at Iteah in the village of Kozakos, European Turkey, killing 12 persons and wounding 20. This is the fourth outrage in Macedonia within a few days. In the other cases railways were blown but no one was injured. Bulgarian revolutionists are accused of being the perpetrators.

## PILES QUICKLY CURED AT HOME

Instant Relief, Permanent Cure. Trial Package—Mailed Free to All in Plain Wrapper.

Many cases of Piles have been cured by a trial package of Pyramid Pile Cure without further treatment. When it proves its value to you, get more from your druggist at 50c a box, and be sure you get the kind you ask for. Simply fill out free coupon below and mail today. Save yourself from the surgeon's knife and its torture, the doctor and his bills.

**FREE PACKAGE COUPON**  
PYRAMID DRUG COMPANY, 400 Pyramid Bldg., Marshall, Mich.  
Kindly send me a sample of Pyramid Pile Cure at once, by mail FREE, in plain wrapper.

## Treasury Department Estimates Contemplate \$21,283,921 Saving

Estimates of the treasury department for running the government during the next fiscal year, submitted to congress today, contemplate a saving of \$21,283,921, as compared with the amount appropriated for the fiscal year 1911-1912. The total amount estimated for all expenses of government is \$746,824,568. This amount does not include the appropriation for the postoffice department, which is expected to be self-sustaining. The appropriations made by congress for the present fiscal year aggregated \$767,215,486.

Economy of government expense proposed is shown to be greatest in the estimates for public works, which are cut from \$122,040,060 to \$100,716,701, a decrease of \$21,323,358. More than half of this decrease is accounted for in a plan of the treasury department for handling appropriations for public buildings and grounds throughout the country, by means of a lump appropriation, a departure from the old custom which may not be adopted by congress. The secretary of the treasury has asked for this purpose \$4,000,000, to be expended at his discretion.

May Be Extra \$13,000,000.

Accompanying the estimate for public buildings and grounds is a note explaining that to care properly for public buildings already authorized by specific appropriations, further appropriations of \$18,000,000 would be necessary. The secretary of the treasury does not include this sum in his estimate. As members of congress usually are careful to secure definite assurance that buildings in their respective districts are to be provided for, the probability is that \$13,000,000 will be included in the appropriation bill finally passed, which would cut down the apparent saving considerably.

Decreases are shown in the estimates submitted for the pension fund, conduct of the executive, and that for the department of agriculture. Substantial increases however, in estimates asked for the military and naval establishments also offset the other savings. For work on the Panama canal \$45,500,000 is estimated, an increase of nearly \$4,000,000 over the appropriation for the present year. This does not include expenditures for fortifications of the canal zone, the estimates asking an appropriation of \$5,640,550 to be expended for army fortifications and mine stations in the zone. For this purpose, last year, \$3,000,000 was appropriated. Under the military establishment head an increased appropriation of \$1,500,000 is asked for sea coast artillery. The total estimate for fortifications and other works of defense is \$7,218,898, nearly \$2,000,000 more than was spent this year.

## Two-Battleship Program.

Secretary of the Navy Meyer estimates propose continuance of the two-battleship naval program, although the estimates are \$1,000,000 less than this year's appropriations so far as increase of the navy is concerned. To continue work on the battleships and two colliers, with provisions for equipment, \$24,323,473 is asked.

The estimates recommend the appropriation of \$29,480,438 for the improvement of rivers and harbors, practically all of it to be expended on projects already begun or authorized. This is about \$50,000 less than the appropriation for the present year. Postmaster General Hitchcock estimates that it will cost him \$250,938,463 to run the postal service next year. This is about \$2,500,000 more than the department expended this year. An experimental parcels post scheme, to be placed in operation on postal routes, is proposed in the estimates, and \$50,000 is asked for this purpose. A provision gives the postmaster general authority to limit to 11 pounds the weight of parcels carried during the experiment and to fix rates. Experimental aerial postal service, "by aeroplane or other devices" is also recommended by the postmaster general, and he wants \$50,000 to spend in trying out the scheme.

In other departments of the government the running expenses estimates show but little change in totals.

## URGES CONFESSION

(Continued from Page One)  
from men who must have known of the guilt of the McNamara, and one of them, at least, I know to be implicated in several outrages with them, I sincerely doubt that such demands are being made with the sole desire of aiding the ends of full and complete justice. (Signed)

"WALTER DREW,"  
Mr. Drew reiterated this evening that he believes that between 20 and 30 labor leaders will be indicted as a result of the federal investigation now under way at Indianapolis, and said the ramifications of the conspiracy would extend from Boston to the Pacific coast.

## DAY'S DEVELOPMENTS IN CASE ON COAST

LOS ANGELES, Dec. 4.—James B. McNamara, who on Friday pleaded guilty of having committed murder through the dynamiting of the Los Angeles Times building, October 1, 1910, wrote his own confession of the deed tonight and gave it to District Attorney John D. Fredericks. His brother, John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, who pleaded guilty of having dynamited the Llewellyn Iron works in Los Angeles, December 25, 1910, made no confession. It was said he was not asked nor expected to do so.

Before James B. McNamara's confession was made, District Attorney Fredericks declared that he would not give it out until after the men were sentenced, and tomorrow is the day set for that proceeding by Judge Walter Nordwell. It was learned that the statement implicates no one besides the writer. It deals with nothing except the actual happening in Los Angeles. It does not describe the trip from Indianapolis

## You Will Be Satisfied

If you rely upon our judgment in buying jewelry. We are glad at any time to have our customers take advantage of such jewelry knowledge as they esteem us to possess, while it is never our intention to offer our own opinions unless desired. In buying Christmas Gifts, you are particularly invited to avail yourself of any suggestions or hints we may be able to offer you.

## The Johnson Jewelry Company

west, nor who McNamara saw after he got there.

Clarence S. Darrow, chief of counsel for the defense, and Attorney Leconte Davis visited the brothers in the course of the afternoon. They came away and later returned accompanied by District Attorney Fredericks. Observers waited for the almost inevitable addition to the party—an official stenographer—but none came.

## Confession in 200 Words.

Meanwhile, in the jail, James B. McNamara sat with a block of scratch paper on his knee writing his own confession more or less his own way. He did it deliberately with care as to the wording of the letters, for this was the supreme document of his life. When he had done, he passed it to Darrow, who read it with Davis looking on, and handed it to Fredericks. The names of the witnesses were attached and Fredericks buttoned his coat over a single sheet of paper bearing perhaps 200 words.

Today's developments included the publication of the deposition of Mrs. Robert F. Bain, made to the district attorney, that at the instance of Bert H. Franklin, investigator for the defense, now charged with bribery, he persuaded her husband, a salesman on the McNamara jury to accept \$4,000 if he would make sure that a verdict of guilty would not be given, and that \$500 of this money actually was paid over.

"I can't get back my honor," she said her aged husband declared when it was suggested that he could return the money. Bain is a Civil war veteran. His great-grandfather fought in the war of the revolution and captured a British drum in a fight with the troops of General Burgoyne. This drum still is in the family.

## Franklin's Case Continued.

As was expected, a continuance was asked and granted in the case of Franklin, the investigator, when it came up today for preliminary hearing before Justice William P. Young.

Former Governor Henry T. Gage, Franklin's counsel, made a speech expressing his hope that within a week the district attorney would find the charges against Franklin baseless. He dwelt upon the vast amounts of money spent by nations over the seas in trying to win the citizens, and declared that in America "this land of alleged freedom of opportunity" there is coming to exist a like state of affairs. Such prosecutions he likened to "retail war." W. Joseph Ford, assistant district attorney, agreed to a continuance for one week, and this was ordered by the court.

Franklin, learning today of rumors that he had confessed, stoutly denied that he had done so. Around his case centers interests of magnitude, and its outcome may determine the fate of men whose liberty tonight lies on scales that a hair may tilt.

## New Angle Opens Up.

Another angle of the case opened up today with the hearing of the federal grand jury. Although the government's case is temporarily in charge

## Try This Famous Pinox "Pint of Cough Syrup"

A Family Supply for 99 Cents. The Surest, Quickest Remedy You Ever Used or Money Refunded.

A cough run by Pinox costs you \$2, and is guaranteed to give you better results than anything else is surely worth trying. And one trial will show you why Pinox is used in more homes in the U. S. and Canada than any other cough remedy. You will be pleasantly surprised by the way it takes right hold of a cough, giving instant relief. It will usually stop the most obstinate, deep-seated cough in 24 hours, and is unequalled for persistent coughing.

A 50-cent bottle of Pinox, when mixed with home-made sugar syrup, makes a full pint of the best cough remedy ever used. Easily prepared in five minutes, dissolves in package. The taste is pleasant, children take it willingly. Stimulates the appetite and gives healthy back and chest. Satisfies the craving for cream, honey, etc., and is a bronchitis and other throat trouble, and a highly successful remedy for indigestion, lung troubles.

of United States Deputy District Attorney E. Hagan, he was said that as soon as Alvin J. McCormick, district attorney for the southern district of California, returned from Washington, whether he was summoned by Attorney General Wickensham, he would take it in hand, and that an assistant from Wickensham's office might assist him. This latter statement could not be confirmed here. Malcolm McLaren, special representative in Los Angeles of the detective agency that brought about the arrest of the McNamaras, said he expected federal investigation of alleged dynamiting conspiracies to be begun within 10 days.

Reagan, as a representative of the United States government, was in court last Friday, when the McNamara pleaded guilty, and has been in communication ever since with District Attorney Fredericks, who has great stacks of evidence for which he seems to have no particular use in court at the present time.

## Urges Extreme Penalty

What sentence would be imposed upon the McNamaras, only Judge Nordwell knew tonight. Many telegrams have been received from eastern organizations, mostly labor bodies, urging the extreme penalty for both men. None of these have been read by the judge. The extreme penalty for James B. McNamara is death, and that for his brother life imprisonment. It was not officially established tonight whether District Attorney Fredericks would urge clemency.

A writ of attachment was served on Justice Young today, in behalf of Dr. J. H. Bullard, who attempted to collect a claim of \$4,750 assigned to him by J. H. Levering, a civil engineer. The writ covers the half of \$10,000 put up by Attorney Leconte Davis for Franklin, and also the \$4,000 in bills secured by the district attorney's chief investigator, Samuel L. Brown, when the arrests were made. Levering's claim is for the remainder of a bill for \$6,000, which, he says, Attorney Darrow, Davis and Harriman owe him for what he declared to be a contract for certain plans and drawing of the "Times building." He said he got \$1,250, but has been unable to collect the balance.

## CALLS GOMPERS "UNSAFE"

U. S. District Attorney Declares President Fight Must Be to Retire Such Leaders

INDIANAPOLIS, Ind., Dec. 4.—"An earnest effort will be made by the government to bring to justice every man who was involved in the most damnable conspiracy ever entered into in this country," said United States District Attorney Miller today in discussing the federal grand jury's investigation of dynamiting operations of the McNamara brothers and others alleged to have been associated with them.

Samuel Gompers, president of the American Federation of Labor, was characterized as "an unsafe leader" by Miller.

"The investigation now being made by the government will be thorough and complete," continued Mr. Miller. "The people are entitled to know all the facts and all the facts will be known at the proper time. It is not a part of my duty to discuss the details and I shall not do so. The time is at hand for me to act."

"There is no occasion for any person to be misled by false issues. This is not a fight between capital and labor. Capitalists and laborers who believe in law and order must and will stand together."

"Such unsafe leaders as Gompers must be retired. Let men who stand on honest ground come to the front. The destruction of life and property must cease. Acts of force and violence must cease and all violators must be brought to justice."

## Kaplan Was in Colorado.

DENVER, Dec. 4.—David Kaplan, one of the men sought in connection with the dynamiting of the Times building in Los Angeles, spent the entire summer this year in Colorado, according to a local detective agency.

## RYAN MAKES STATEMENT

Head Iron Workers Says Assn. Is Against Violence Courts an Investigation

CHICAGO, Dec. 4.—Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, of which John J. McNamara is secretary-treasurer, tonight gave out in Chicago the following statement: "Not until I read today's press dispatches did I realize that I have been expected to make a public statement concerning the confession of the McNamara. The news reached me Friday evening, at Atlanta, from where I had expected to go to New Orleans. I remained in Atlanta until Saturday evening and came from there directly here, arriving last night. I shall leave tomorrow for Washington and will be at headquarters in Indianapolis the latter part of the week."

"As to the pleas of guilty entered in Los Angeles, I can only say I was greatly surprised and shocked beyond description. "John McNamara has been our trusted secretary for many years, and I always had implicit faith in his integrity. During my administration as president of our organization, my work kept me on the road nearly all the time. The affairs in the office were practically entirely in the hands of our secretary-treasurer, and I had every reason to believe that my confidence was well placed."

McNamara's plea of guilty was a terrible personal blow to

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Dr. J. C. Ayer* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trade with and endanger the health of Infants and Children—Experience against Experiment.

## What Is CASTORIA

Castoria is a harmless substitute for Castor Oil, Peppermint, Drops and Soothing Syrup. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It regulates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea. The Mother's Friend.

## GENUINE CASTORIA ALWAYS

Bears the Signature of

*Dr. J. C. Ayer*  
The Kind You Have Always Bought  
In Use For Over 30 Years.

THE CENTAUR COMPANY, 27 NASSAU STREET, NEW YORK CITY.

me, as I never had occasion to doubt his integrity. "As for our organization, I can say that its aim has been to better the working conditions of the men employed in this most arduous occupation and to provide ways and means to preserve life, limb and property, not to destroy them, and in this endeavor we shall continue as long as we have strength to endure. We will stand by our members, and I think our members will stand by us."

"Immediately after the arrest of the McNamaras we went on record through our executive board against the use of dynamite and other forms of violence and this always will remain our position. "Much has been said in the newspapers concerning an investigation of the 'higher up.' If I am in that class I welcome such an investigation, as I have nothing to fear therefrom. (Signed) "F. M. RYAN."

Mr. Ryan refused to answer any questions put to him, and would not discuss the report that the international union had appropriated \$1,000 for the use of John J. McNamara without exacting from him an accounting therefor.

To all queries he replied: "All I have to say, or will say, is contained in the statement. That tells of my past and future movements and expresses all I desire to say."

## SHIPS CREW VICTIMS SLEEPING SICKNESS

ST. NAZAIRE, France, Dec. 4.—The ship Antoinette has arrived here with her crew of 12 in an advanced stage of sleeping sickness. The disease broke out 100 days after the Antoinette left Java. Three sailors died.

## PRISON BUILDINGS BURN

HUNTSVILLE, Tex., Dec. 4.—Fire originating shortly before noon today in the shoeshops of the Huntsville branch of the Texas penitentiary destroyed prison property valued at \$300,000 before it was checked by dynamiting several buildings. Fire fighting apparatus was brought from Houston. For a time the fire threatened to spread to the business section of Huntsville.

None of the prisoners escaped and with the exception of several who sustained minor burns, none was injured. Eleven buildings, including the cotton and furniture factories, machine shops, ice plant and an office building, burned.

## WHOLESALE ARRESTS FOR FRAUDULENT REGISTRATIONS

LOS ANGELES, Cal., Dec. 4.—Ten men arrested, charged with fraudulent registrations and 150 warrants out for others, including both men and women, on the same charge, were features of the day before the municipal election. The election will determine whether George Alexander, "good government" incumbent, or Job Harriman, Socialist candidate, and formerly attorney for McNamara brothers, shall be mayor of Los Angeles.

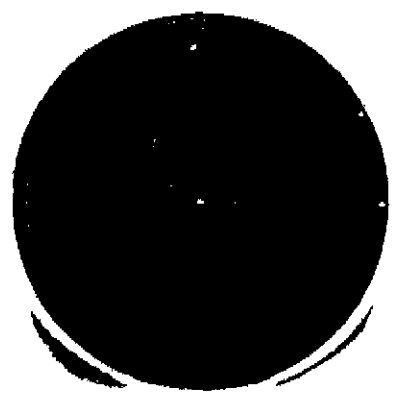

## SUPREME COURT OF U. S. CONSIDERS PACKERS' CASE

WASHINGTON, Dec. 4.—The supreme court of the United States took under consideration the application of counsel for the Chicago beef packers for a stay of their trial in the United States district court at Chicago on charges of criminally violating the Sherman antitrust law.

## Ask Your Doctor

It is impossible to be well, simply impossible, if the bowels are constipated. Waste products, potent substances, must be removed from the body at least once each day, or there will be no life. Ask your doctor. Ask Ayer's Pile Cure, gently laxative, all day long. He knows why they are so healthy on the liver.

## Societies and Clubs

The Woman's Missionary society of the Second Congregational church will give a reception for its new members this afternoon at 3 o'clock. Miss Foote will tell of her missionary work in Turkey. The ladies of the Hillside society are invited to meet with it, also others interested in the work.

The Woman's Bible class of the First Presbyterian church has indefinitely postponed the social which had been planned for tonight, on account of serious illness in the home of the president of the class.

The Congregational Five Hundred club will meet today with Mrs. Morris Greenberg, 118 East Duke street. The game will begin at 2 15 o'clock.

Stated assembly of Zabud council No. 8, R. and S. M. will be held today at 8 p. m. Annual election and installation of officers will be held. A banquet will be served.

The auxiliary of the Christian Woman's board of missions will hold its regular monthly meeting in the parlors of the First Christian church today at 2:30 p. m.

The Columbian Embroidery club will meet tomorrow with Mrs. W. D. Martin, 208 North Walnut street.

The regular monthly meeting of the directors of the Boys Club association will be held today at 3 p. m. Instead of 2:30, the usual hour. A full attendance is requested.

The Woman's Foreign Missionary society of the First Methodist church will hold its regular monthly meeting today at 3 p. m. at the home of Mrs. W. E. Fryhofer, 228 East Yampa street. All ladies of the church and congregation are invited.

Hermione temple No. 1, Ethiopian Sisters, will meet in K. P. hall tomorrow at 2:30 p. m. An election of officers will be held. A full attendance is desired.

The L. C. B. A. will meet tomorrow at 6 p. m. in Caledonian hall. Election of officers will take place. All members are requested to attend.

Many fraternal organizations will hold their annual election of officers this week. Tonight Phoenix encampment No. 21, I. O. O. F. will hold its election and will also offer the royal purple degree, the highest in the encampment. Refreshments will be served.

Colorado Springs post No. 22, G. A. R., will meet in regular session at 7:30 o'clock tonight. There will be election of officers and other important business transacted.

The ladies of St. Francis Aid society will meet at the hospital tomorrow afternoon. All members are requested to be present, as officers will be elected.

The adoration of the blessed sacrament will be observed all day Friday, in the chapel of St. Francis hospital.

## DENVER BAR ASSN. WILL PROBE MURDER TESTIMONY

DENVER, Dec. 4.—At a meeting of the Denver Bar association tonight, resolutions, introduced by T. J. O'Donnell, were unanimously adopted which may lead to a judicial investigation of testimony given by Francis J. Easton, who was an alleged eye-witness for the defense in the recent murder trial of Gertrude Gibson Patterson. The resolutions say charges made by Special Prosecutor Horace Benson, that Easton's testimony was "wholly false, and was manufactured for the occasion," should be investigated by the grievance committee of the Bar association, and, if further action seemed warranted, the committee should take such steps as would lead to a judicial investigation, and that a general meeting of the bar association should be called to consider the situation.

## CONFESSES TRAIN HOLDUP

JUDITH GAP, Mont., Dec. 4.—Charles Adams, arrested Sunday night for drunkenness, confessed today to participation in the holdup of a Northern Pacific passenger train, near Buffalo, N. D., on June 28 last. Six men, he swears, left Aberdeen, S. D., for the purpose of holding up the train. Four of them boarded the train, Adams says, two at the front end and two at the rear. He was at the rear and held up the passengers in the sleeper. When he had robbed a few of the passengers his companions in front signalled to stop, and the four men got off the train near Buffalo, N. D., and ran south.

The confession continues: "We made for the swamps and went through Buffalo, where one of our men was shot; went down to Fargo, N. D., and separated. I went to Ashley, N. D., and worked for a man named Kaufman, but as it was getting too hot for me there I came to Montana and have worked in the vicinity of Judith Gap since the first part of August."

The Northern Pacific officials wired today to hold the prisoner.

Chlie's latest official estimate placed the contents of the nitrate fields at 242,150,000 tons, or enough to supply the world, at the present rate of consumption, 120 years.

New York has a school devoted exclusively to the study of motorboats.

## DIPPY-DOPE

If Kati couldn't walk would a nail corner? Or if on a bent rent ed a house to his eight uncles could you sell them his tenants?

## Two New Senators and Five Representatives

Are Inducted into Office at First Session of Congress Vice President Sherman Away

WASHINGTON, Dec. 4.—Congress reassembled today. It inducted into office two new senators and five new representatives. It was the first regular session of the Sixty-second congress, a session expected to be replete with remarkable developments, and which may stretch over a period longer than the usual meetings of congress. The session is counted upon to deal with the tariff trusts, currency, arbitration and a host of other big problems, but all activity will be with a view to the effect upon the coming presidential campaign.

The senate was in session 17 minutes. The house, however, continued its proceedings for two hours and 18 minutes. The senate decided to meet hereafter at 2 o'clock until legislative needs put the hour back to noon. The house will meet at noon.

Senators Gallinger of New Hampshire and Tillman of South Carolina, the terms of whom were called away from the extra session by the death of a son and the latter compelled to be absent by his own illness, were greeted with especial warmth.

The following were sworn into office: Senators Hoke Smith of Georgia and Obadiah Gardner of Maine. Representatives Browning of New Jersey, Ames, Pennsylvania, Stephens, Nebraska, Taggart, Kansas, and McKellar, Tennessee.

Vice President Sherman was called to the city by the death of his mother-in-law, Mrs. Ellen Babcock, and the senate designated Senator Curtis of Kansas to act as president pro tempore until December 12.

## 10,870 Babies Born in Colorado in Year; This City in Lead

DENVER, Dec. 4.—Babies to the number of 10,870 were born in Colorado during the year ending September 30, according to a statement prepared by the state board of health. In Denver 2,700 infants first saw the light of day. The city that stands highest in birth rate, however, is Colorado Springs, which, with a population of 30,000, reports 611 births, or one to every 50 people. Only 298 births are reported from Pueblo, which has a population of 44,395. Colorado Springs also leads the state in the number of twins. Large birth rates are the rule in Huerfano and Las Animas counties. During the first three months of existence the new county of Crowley welcomed 11 babies.

## TICKET SCALPERS LOSE

DENVER, Dec. 4.—The state supreme court handed down a decision today, in the case of William F. Kirby against the Union Pacific Railway company, which will put the ticket scalper out of business for good in Colorado.

THIS is one of eight cases, by as many railroads, operating in the state of Colorado asking for injunction relief against some 65 defendants on special nontransferable contract tickets. The supreme court confirmed the opinion giving the decision that the district court has the right to issue an injunction restraining any broker from carrying on the scalping system in this state.

## TO REDUCE RATES ON GOODS FROM DENVER

DENVER, Dec. 4.—According to members of the Colorado Manufacturers association, material reductions in freight rates on all classifications of manufactured goods made in Denver will be announced in a few days by all railroads covering what is known as "Denver territory" which includes a region extending 200 miles east and from 300 to 400 miles west, south and north of this city.

The new rates will affect only the shipping of Denver-made goods. In return for this concession from the railroads it is understood that the manufacturers' association will not file its threatened suit with the interstate commerce commission to obtain such reductions. This will in no way involve, it is said, the suit that has already been filed by the association for a reduction in rates from the Atlantic seaboard either all rail or a combination of sea and rail.

## COLORADO BEET SUGAR MANUFACTURERS CALLED

WASHINGTON, Dec. 4.—The special committee of the house, appointed to investigate the operations of the American Sugar Refining company, will resume its hearing in Washington tomorrow, when Colorado beet sugar manufacturers will testify concerning the operations of the beet sugar end of the so-called trust.

The committee has called W. P. Willett and Frank Lowrey of New York to testify regarding general sugar statistics. Chairman Hardwick expects the hearings to end this week, but the final report of the committee will not be ready before January.

## FOR SICK HEADACHE, SOUR STOMACH, LAZY LIVER OR SLUGGISH BOWELS

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach, remove the sour undigested and fermenting food and that makes gas, take the excrement from your liver and carry off the decomposed waste matter and poisons from the intestines and bowels. Then you will feel great.

A Cascaret tonight will straighten you out by morning—a 10-cent box means a clear head and cheerfulness for months. Don't forget the children, little litle, insides need a good, gentle Cascarets too.

**Cascarets**

## D. & R. G. TRAIN HITS LANDSLIDE; IS DITCHED

DENVER, Dec. 4.—One fireman was seriously injured and two passengers killed as well as five members of the train crew, suffered only slight bruises and cuts when Denver & Rio Grande passenger No. 6, westbound, which left Denver at 3 a. m. today ran into a landslide 50 miles west of Pueblo at 5:10 o'clock this afternoon. The train was a double-header.

Both engines and two baggage cars left the track, one of the engines tumbling down the bank into the Arkansas river. The injured fireman's name is Fitz. The accident happened near Swiswale, a small station. Rio Grande officials say the track will be cleared by morning.

## MEN

Like sensible Christmas gifts. Come to a man's store to get them. Here are a few suggestions chosen at random from our big holiday stock:

**Fountain Pens** Choice of the largest stock Waterman's Ideal Swan Safety Modern self filler \$2.50 to \$25 each. Absolutely guaranteed.

21 North Tejon.

GAZETTE 60 MONTH.

## COMMISSIONERS FRAMING NEW GASOLINE ORDINANCE

An agreement as to a few of the provisions that will be incorporated in the new gasoline ordinance was reached at yesterday's conference between the city commissioners and owners of automobile garages and dry cleaning establishments, whose places of business are within the fire limits.

Owners of garages and cleanatoriums will be compelled to build cement floors in the rooms where gasoline is used. One section of the proposed ordinance probably will contain a clause that the owners may not keep a supply of more than 150 gallons of gasoline within the fire limits, and that even this supply must be buried in a tank at least two feet under ground.

A provision will also be made that a drainage tank must be built to hold waste water and gasoline. It will be so constructed it is supposed, that gasoline fumes may pass off through vents before the water and waste oil and gasoline passes into the sewer.

There were a large number of owners of dry cleaning establishments and garages present at the meeting. It is planned to draw up the ordinance immediately.

When you have a bilious attack give Chamberlain's Tablets a trial. They are excellent. For sale by all dealers.

## NO AGREEMENT YET ON NEW SALARY ORDINANCE

The city commissioners could not reach an agreement at the informal meeting yesterday to talk of the proposed salary ordinance, which would grant an increase to practically every employee at the city hall. Another informal session will be held this week in an attempt to have the ordinance passed and in operation as a New Year's present for those who will be benefited.

In addition to granting an increase to the fire chief and police chief from \$125 to \$150 a month, it is proposed to raise the salary of the city clerk, city treasurer and water commissioner to a like amount. The city clerk and city treasurer are now getting \$137.50 a month.

The same proposed ordinance will give an increase from \$100 to \$110 a month to the assistant city clerk and \$90 instead of \$80 a month to the city clerk's stenographer. The employees of the city auditor's office and the water department and city engineer's office, as well as the civil service department, will also be affected, it is planned.

## SENT TO JAIL FOR CUTTING AFFAIR

A recent cutting scrape at Monument resulted in the three participants being sentenced to the county jail by Justice O. R. Dunnington yesterday afternoon. John Dougherty, the man who was carved, and Thomas Steed, were sentenced to 30 days each, while Thomas Halla must serve 90 days. The men were railroad employees. After last pay day they went to Denver and upon their return home a fight ensued in which Dougherty was cut on the neck with a butcher knife. It was shown that Steed had little to do with the cutting and he was released on parole.

## OSLER RIGHT; YOUTH SUCCEEDS AGE

GRAY HAIR IS FIRST SIGN OF AGE, SAYS OSLER—SEE IT—JOY OF IT—STORM TO MAKE IT COLOR

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them, act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well-known fact that "Sage and Sulphur" will darken the hair. Wyeth's Sage and Sulphur combines these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy guarantee that the money will be refunded if it fails to do exactly as represented.

Don't look old before your time. Get a bottle of Wyeth's Sage and Sulphur today, and see what an improvement it will make in the appearance of your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent Robinson Drug Co. 102 E. Pike St. A.

## EASILY BREAKS A SEVERE COLD

In Just a Few Hours All Misery From a Bad Cold or the Grippe Will Be Overcome.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

It is a positive fact that a dose of Pape's Cold Compound, taken every two hours until three consecutive doses are taken will end the Grippe and break up the most severe cold either in the head, chest, back, stomach, limbs or any part of the body.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, sore nose, stiffness and rheumatic twinges.

Take this harmless Compound as directed with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects, as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

## THREE GIVEN DIVORCES; ANOTHER BEGINS SUIT

Three divorces granted, and the filing of one petition, was yesterday's record in the county court. Virginia Girardo has asked Judge Little to give her a legal separation from Tony Girardo, and wants her maiden name, Virginia Demarco, restored. The couple were married in Wellington, last May. She charges cruelty.

Because Arthur Vickers failed to support her, Ada Vickers was granted a divorce by Judge Little and given the custody of her minor child, Eva. They were married in Golden in 1908.

M. B. Bright testified that he found his wife, Hazel, in a vineyard at Denver with another man, and that his wife was cruel to him. They were married at Fort Morgan in 1910. He was given a divorce.

On the grounds of cruelty and non-support, Rena May Kelso was given a divorce yesterday from Clyde E. Kelso and granted the custody of their son, Edmund Wayne. They were married at Quinlan, Okla., in 1908.

## SUITS DRY CLEANED \$1.00

Pantatorium, 17 E. Bijou.

## REED COMPANY'S OIL LAND IS VALUED AT \$15,000,000

In a recent report made to the Midwest Oil company, in which the Reed Investment company of this city has large holdings, Ralph Arnold, an oil expert of California, states that the property of the company is valued at \$15,000,000. Mr. Arnold claims to have used the most conservative figures on which to base his estimates. The property consists of about 6,000 acres of oil lands in Wyoming.

The report was made public yesterday by O. H. Shoup, president of the Midwest company, who, with Mrs. Shoup, returned to this city from France Sunday. Mr. Shoup was in Europe for a conference with Y. Z. Reed and French associates. In a statement given out yesterday Mr. Shoup said the company has made arrangements with the Northwestern Railway company for the consumption of its entire output of oil. He said that the refinery would be started about January 1 with a capacity of 2,500 barrels a day.

## ST. THOMAS MINING CO. MAY BE REORGANIZED

There was talk among members of the mining exchange, yesterday, to the effect that there would be a reorganization of the St. Thomas Mining company. If carried into effect, it was said, the holders of stock in the old company would be given the right to subscribe for stock in the new company.

"The talk of reorganization," said D. N. Helmer, president of the St. Thomas company, "is no more than a suggestion that has been made. There is nothing that could be said at present, and I would not want to give any reasons."

The St. Thomas company has holdings in the Beacon Hill, Cripple Creek district.

## BUT LITTLE HOPE FOR BURNHAM'S RECOVERY

Arthur J. Burnham, whose family was murdered on West Dale street last September, is critically ill at the home of his mother-in-law, Mrs. E. B. Hill, 822 South Sierra Madre street. In addition to the weakened condition of his lungs, Mr. Burnham is suffering from an attack of dropsy and Bright's disease.

"There is little doubt that Mr. Burnham is seriously ill," said his physician last night, "but there is a chance for him to live several days."

"He is suffering intense pain," said Mrs. Hill, "but he does not utter a word of complaint. He talks a great deal of his wife and children, and while he has been ill a long time, I believe he would have recovered had it not been for the crime that robbed him of his family."

## ENGAGEMENT ANNOUNCED

"At a small dinner party last evening at her home 1819 North Nevada avenue Mrs. Hammond Williams Wall announced the betrothal of her daughter, Edith Maynard, to Mr. John Marledge Woy of Telluride. A late has been set for the wedding."

## STEADY FLOW FROM ROOSEVELT TUNNEL

An official report of the progress made in the Roosevelt deep drainage tunnel was made by the company's engineer, T. R. Countryman, yesterday. According to the engineer the flow of water from the portal remains steady at 8,000 gallons a minute. The tunnel has been advanced 875 feet since the resumption of work, and the lowest of the tunnel is now 3,115 feet from the intermediate shaft.

The report in full follows:

Cripple Creek, Colo., Dec. 4, 1911.  
W. R. Vetterlin, Secretary,  
Colorado Springs, Colo.  
Dear Sir—

I wish to correct my report of November 1 and November 11 regarding the actual progress made in the drainage tunnel as follows:

Nov. 1, 1911—Total distance from intermediate shaft to intermediate shaft Oct. 1 164 ft.

Progress during month of October 17 ft.

(Instead of 110 feet as reported.)

Nov. 1, 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during first half of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

Progress during month of November 1911—Total distance from intermediate shaft to intermediate shaft Nov. 1 181 ft.

## DOUBTS AUTHORITY OF POLICE CHIEF

Has the chief of police authority to issue orders to a patrolman?

This question caused a heated argument among members of the city council last night. The question came up last Saturday when Night Patrolman Colbert, it is said, refused to obey the orders of Mayor Hamble, who is chairman of the police committee, and chief of Police Laws. When he was told to go home and report for duty the next morning. Last night Mayor Hamble again brought the matter up by asking if the police of Colorado City are expected to obey the orders of their superiors, or if they were subject to orders given by members of the city council other than those aldermen who constitute the police committee.

Alderman Faulk took offense at this and exclaimed: "Don't get personal there. Don't say that I am trying to run the police."

"I wasn't speaking of you alone, Mr. Faulk. I was talking to the council collectively," retorted the mayor. "Yes you were too," said Faulk. "You looked square at me when you said it, and you know you did." Faulk then attempted to show the council how the mayor had tried to slip it over on them when he ordered Colbert put on the day force.

According to his story, the mayor talked with Reid, chairman of the police committee, about changing Colbert to day duty. Reid conferred with one other member of the committee, but failed to see the third. Then Reid, having the consent of the committee, ordered the chief to tell Colbert to report for day duty. Faulk insisted that the order was unlawful since the police committee had not met to discuss the matter, and said that the chief had no authority to order his men to report at any time he desired.

The mayor read the following part of an ordinance: "The town marshal, under the mayor, shall be the immediate executive head of the police of this town, and shall direct their movements and assign the several members of the force to their respective duties." Faulk insisted, however, that without consent of the council, Colbert could not be changed from night to day duty, and refused to recognize the authority of the chief of police.

After an hour or more of heated argument, the mayor said: "Gentlemen, I have just one thing to say. You aldermen who are not on the police committee keep out of police affairs."

Again Faulk took offense. "I'm no mean," he said, "and I am going to tell you just what this council is going to do. As sure as you order things around in the police force, between council meetings, we will reverse the order at the meeting. We can control in the meeting, if we cannot outside, and if you don't consult us on these matters we will reverse your decisions every time."

However, after all the argument, the question as to whether the chief of police has the authority to issue orders to a patrolman was not settled, and Chief Laws doesn't know whether he is at the head of the force or not. The objection to the clause in the minutes of the previous meeting which deals with the appointment of former Detective Payne as a special policeman, was taken up, and the following resolutions passed:

"Resolved That the action of the city council heretofore taken in appointing Charles Payne as a special policeman without pay be and the same hereby be rescinded and reversed, and that this commission as merchant police be cancelled on and after the date of this resolution."

Later Payne said that resolution says I am a special policeman and also a merchant policeman. Then it says my commission as a merchant policeman is revoked but I hold no commission of a merchant policeman. My commission says that I am a policeman. What would you do in a case like that?

A resolution to give D. M. Sponshier the right of way for a side track in Washington Avenue at Sixth street provided the Denver & Rio Grande railroad constructed it was introduced. Sponshier said if he could get the side track he could lease and probably sell the old hotel building on that corner to parties who intend to form a whole grain flour feed and fuel company.

Alderman Kelly objected to the resolution saying: "I think we should look into this matter more before we take action. None of us know what this man wants. I for one am against it. That is all this council ever does. It goes into things and passes motions, resolutions and ordinances without knowing anything about them. Later they are sorry for it. That is the trouble now and I am against the resolution."

"I, for one, have investigated the proposition at the request of Mr. Sponshier," said Alderman Burson, "and I know what I am talking about. It will be one of the best things we can do for Colorado City if we can get this whole-sale house here. There is one side-track across the street and I think that we should pass this resolution granting the request."

"You say you have investigated the matter, Mr. Burson? Well you are not the whole council. We have some say here," said Kelly.

# THE DAY'S NEWS IN SPORT CIRCLES

## NATIONAL LEAGUE WILL PUT STOP TO GOSSIP OF OWNERS

CHICAGO, Dec. 4.—Henceforth National league club owners shall hold their tongues—like those of the National constitution amendments to the league meeting next week, word, or at least one of close relationship to "misdeemeanor," is about slipped into the code of league rules and it will be under penalty of a fine should a manager in the future give out for publication anything out of an executive session, brief, "schoolroom silence" will be order in Professor Lynch's institution.

The fact that the league which boasts 6 years of existence is considering second childhood, is divulged in a report from New York, which, insofar as how or where it will help the national league cause, is a puzzle. The news came from the big town, and when President Murphy of the Cubs was pressed for an opinion on the matter he admitted that it was deeper than the subway. "Murphy" admitted that it might be a plot to rob of his favorite hobby—talking.

When asked for a few words on the subject the Cubs' boss at first, proved ignorant as to their exact nature, but nevertheless he immediately went to a volume of verbal stuff, to place himself in line for a far in excess of the amount provided. He prefaced his remarks with words to the effect of his wish to wait until he could be informed fully on the matter, but this in any way hampered the statement that he first, last and all the time heartily favored the "open door" policy, decided opposed to any moving toward gun-shoe methods and gathering.

The league meeting to be held at the convention is the gist of Murphy's reply. He advocates the "open door" with an invitation extended to all members, present and those so that all may have the opportunity of presenting suggestions, thus insuring interest and likewise making it possible for the public to be accurately informed and not filled with "rumor," which now arises from the many groundless reports.

"I would like to see the National league hold open sessions, just like the National Association of Minor leagues does," said Murphy. "After having attended several interesting conventions of the National association, I am prepared to say that there is absolutely no reason on earth why the National league should not do likewise."

"I say let the members of the Baseball Writers association of America in to the session room. Yes, and let them participate in the debates, which are precipitated by movements looking toward the uplifting of the game. Members of the press have the good of the game at heart and will not print anything detrimental to the welfare of the sport just to have a story. It seems to me that dark lantern and green whistles methods are no longer necessary in the conduct of professional baseball."

"If all the cards are to be dealt above the table no one should be ashamed of his actions at the meetings of the National league. I like the democratic manner in which the affairs of the National association are conducted. Persons interested in the game or in other lines even remotely allied to the sport are not only received with open arms, but they are permitted to participate in debates. To my mind that is the up-to-date way of handling baseball. The game belongs to the people. Then let the people know what is going on in the meetings. All financial affairs can be handled at the executive meetings of the board of directors. This thing of shrouding these meetings in so much mystery is ill-advised and wholly unnecessary from my viewpoint. In my judgment that would be a step in progress."

Action tending toward the complete rout of gambling upon the outcome of games during the regular baseball season will be taken at the meetings next week of the American and National leagues and national commission at New York. President Johnson of the American league upon his return to the city yesterday announced that steps had already been taken along this line.

The proposed action will aim specifically at the "Derby" device, which operated throughout the country during the past year. In simple it is a pool in which a player draws one of the 16 major league teams with a throw of the "pea." His winning of the "pot" being dependent upon whether or not his team succeeds in scoring the largest number of runs during the week.

The game enjoyed a productive season, but once under the ban it will soon die with the brand of a lottery, pure and simple. The commission will first take the matter under consideration and propose some sort of a remedy, after which the major league managers will have the opportunity to offer suggestions. It is understood that the department of justice has already been communicated with in regard to stamping out the evil.

Edie Root, the hero of many six-day bicycle races, who is an entrant in the forthcoming six-day grind to be at Madison Square Garden, started December 10. He will be teamed with Freddie Hill of Boston. Root won last year when he was teamed with Moran.

## CROCKER'S STABLES SHOW NEAT PROFIT

NEW YORK, Dec. 4.—Richard Crocker, Tammany's former leader, and owner of the celebrated race horse Dan Patch, who beat the famous Dan Patch, and also owner of the great Dan Patch, who won the English derby, heads the list of winning owners in Ireland for the racing season of 1911, with a total of \$30,000. This amount is more than likely would have been increased very little for the fact that an unprecedented state of affairs was caused with regard to Irish racing on account of the late strike of the railroad employees in Ireland, which wiped out some of the most important of the fall meetings there. Several of the great events, notably the Curragh October and Leopardstown November free meetings, were abandoned, as not only was it practically impossible for the public to travel, but it was absolutely dangerous for owners to intrust their valuable thoroughbreds to the railroad companies.

Crocker's success is all the more remarkable as his stable had not netted a winning bracket up to the end of June last. Crocker, the stable crack 2-year-old, was a disappointment, as he flattered only to deceive in his several races, and though "as handsome as paint," he must do better next year before he can make good the old proverb, "Handsome is that handsome does."

It was left to the young blood to sweep the board of all the 2-year-old races and put the Crocker stable away in front. The American Stakes, Amsterdams, by Americanus-Sabine Queen, starting the winning sequence when she won the Nursery Plate at the Curragh June meeting from a high class field and afterward supplementing her victory by taking the time-honored and much coveted Anglesey Stakes of \$5,000. This useful youngster goes into winter quarters unbeaten and should develop into a splendid type of thoroughbred race horse by next year.

## T. RYAN AGREES TO MATCH WITH DECKER

"I do not know the man, but the proposition looks good to me," said "Tommy" Ryan, the local wrestler, who in his physical culture studio prefaces the title "professor" in talking last night of the challenge made by Carl Decker, who was in Colorado Springs Saturday night on his way to Chicago.

Before he was through with his talk Ryan had accepted the challenge and expressed a desire that Manager Edwards of Decker's camp call at the studio to make further arrangements.

## TAYLOR IS SLATED TO HEAD NEXT YEAR'S TEAM

Theron Taylor, better known as "Jack," is slated for next year's captaincy of the High school football team. The election will be held this evening. Taylor played last end and is considered one of the best men at that place in the state interscholastic circles. During the last season he played a spectacular game at all stages. In addition he is very popular with his schoolmates and teammates.

## HORACE FOGEL REELECTED

PHILADELPHIA, Dec. 4.—Horace G. Fogel, after his reelection as president of the Philadelphia National league baseball club today, said the question of who will manage the team next year is unsettled. Mr. Fogel said Charlie Doolin, who was manager last season, had expressed a desire to retire from the management, but no decision would be made in the matter until after the National league meeting in New York next week.

Leach Cross of New York, a dentist by profession, who has been steadily climbing to the pinnacle of fame on the lightweight ladder of pugilism. The east side idol has given several beatings to all he has met lately, and earned the decision over Tommy Maloney and recently gave Battling Hurley such a severe drubbing, that the referee had to stop the bout. He is matched to fight "Knockout" Brown the early part of December in New York.

## "EDDIE" COLLINS SOME FOOTBALL STAR, ALSO

PITTSBURGH, Dec. 4.—Eddie Collins, the fleet little second baseman of the Philadelphia Athletics, formerly was a football player on the University of Columbia eleven. He was only a sub, but played well when given a chance. It took Connie Mack several years to discover that Collins was a star baseball player. The football coaches probably overlooked a glittering star when they passed Collins up as a regular.

When they play baseball folks forget that they may have once answered a quarterback's signal and plunged into a line of flesh, moccasins and jersey, instead of plowing a furrow in soft loam toward a square of bulging, hair-filled ducking. Says an eastern critic: "Mathewson and Collins of the present day big league stars are also the football stars of baseball. They will tell a story of the wonderful play Philadelphia's second baseman made when he was 'sub' at the University of Columbia. Collins starred in the Columbia-Amherst battle of 1905 just as he was starred in world series games since."

Collins was only a sub on the Columbia variety, that fall, which was coached by Bill Morley. Collins didn't get his chance until the last five minutes, with the score standing 10 to 6 in favor of Amherst, with the ball on Columbia's 20-yard line.

"I refuse Donovan!" yelled Eddie to the referee, who dashed out from the side lines, just as full of pepper as he is now prancing about second.

"Collins could run in the open field, and Morley knew it. Eddie had orders to call his own signal. Donovan had been playing quarterback. Eddie did. He was thrown for a loss by the Amherst ends."

"Eddie called it again."

The blue and white crowd of Columbia rose en masse as they saw the streaks of Collins' blue and white socks going around the end he had been thrown by. Five, 10, 15, 20 yards he ripped off, before somebody "got" him. Collins finally, in four plays, took the ball to the 20-yard line.

"Then Eddie 'sacrificed'."

"I replace Collins!" yelled a fellow

## OVERLAND SCORES

Team No. 2 of the F. & G. club had an easy time in defeating Team No. 4 in three straight games on the Overland alleys last night. The Rocky Mountain five will play the Robbins team (Commercial league schedule, tonight. Here are last night's scores:

TEAM NO. 3			
Deichman	134	173	145
Hagermeyer	115	128	158
Piccolo	110	138	120
Monty	144	135	153
Moran	142	104	142
Totals	645	718	723

TEAM NO. 4			
Rush	149	127	134
Wolf	89	85	70
Sauerwald	95	88	106
Johnson	80	105	132
Hayden	118	111	126
Totals	539	616	578

## BRUNSWICK SCORES

Two games went to the members of team No. 2, F. & G. club, in last night's play on the Brunswick alleys, with team No. 1. The Muehl's Candy company's team, Business Men's league, will play the Central Electrical company five this evening. Here are last night's scores:

TEAM NO. 1			
Berry	124	140	110
Johnson	141	131	178
Langman	123	90	132
Schlesinger	117	85	136

Totals	651	737	630

## INDOOR BASEBALL TEAMS WILL OPEN SEASON SOON

The Robbins and West Side indoor baseball teams will open the winter season schedule in the city league the night of December 12. The Powell, Donner and Holy Name teams will play December 18. The representatives of the league will meet at the Y. M. C. A. this evening to arrange for uniforms. All games will be played at the Y. M. C. A.

## HIGH SCHOOL JOYOUS OVER LONGMONT DEFEAT

The High school faculty members were willing when the students expressed a desire yesterday to celebrate the victory of the Terrans of the Longmont high school team. No classes were held during the day.

German scientists claim to have taken bacteria from tobacco produced in one part of the world, inoculated another plant with them and imitated in the latter the flavor and aroma of the

## TIE GAMES SHOW NECESSITY OF CHANGES IN 1911 RULES

PHILADELPHIA, Dec. 4.—The result of the Harvard-Yale and Army-Navy football games more than a week ago still further emphasizes the objectionable feature which has prevailed in connection with the present football rules. Harvard and Yale played each other to a standstill for 60 minutes, and if they had played for a week there would have been little chance for either side to have scored a touchdown. The Army and Navy also played each other to a standstill, as far as rushing the ball is concerned. Neither team could get by the other's forward line, and only Captain Dalton's splendid place kicking permitted the Navy to score and win the game. Inability to score touchdowns, except on a fluke, has characterized the play in all the championship games of the year. Almost everywhere the leading football authorities of the country are now unanimous in the opinion that radical changes will have to be made this winter.

In making changes in the rules the football authorities will have to mind some changes by which it will be possible for a team to score with some consistency. To date this has been impossible.

There are two important changes which football men have in mind. One is the elimination of the forward pass, the other either a reduction of the distance to be gained in three downs from ten yards to five yards or permitting an extra down to gain this distance. A number of other suggestions have been made, but none has been considered as seriously as these mentioned.

It is the unanimous belief of nearly all the critics that the rules committee would have done much better if it had carried out its original intention before the season of 1909 and ruled the forward pass out of existence. The general football public is not acquainted with the narrow escape which the forward pass had in May, 1910. After the season of 1909 football coaches were very evenly divided upon the wisdom of retaining or abolishing the forward pass. At a meeting held in May at the University club, Philadelphia, after an all night discussion of the question it was voted to repeat the forward pass and to reduce the distance to be gained in three downs from 10 yards to eight yards. A loophole was left by the provision that at the adjourned meeting of the committee to be held one week later this body could reconsider the motion abolishing the forward pass.

In the meantime Dr. Carl Williams of Pennsylvania and Percy Haughton of Harvard got together and devised a scheme which they claimed would make it possible to operate the forward pass with success and would overcome the objections which had been urged against it. Inasmuch as the committee had been very evenly divided on the matter of abolishing the forward pass it was not a difficult matter to have the measure reconsidered. So convincing were the arguments presented by Doctor Williams and Mr. Haughton that after making a few minor changes the committee decided to let the forward pass live for another year. Last fall the forward pass gave more satisfaction than it had at any time since its introduction in the spring of 1906. To be sure it had a good many critics left, but it was felt that it given an opportunity the play would justify its existence. For that reason the football committee when it met in January of this year, decided to make no changes of any importance in the code, acting on the belief that the rules would justify themselves this fall.

The one change which the committee made in the forward pass was that

when a ball was legally touched and mumbled it became mine and through to last and the ball was in the air. Which had made the pass with the loss of a down. It was believed that this change in the rules would make it easier to operate the pass. The new rules did not work out as expected and the forward pass instead of being a help to the offense was a hindrance. This was first proven at Princeton University, whose team defeated both Harvard and Yale, although the intercollegiate championship of the year without once resorting to the forward pass. The three colleges experimented with the rule very extensively and the outcome of the season and came to the conclusion that it was unhelpful to the offense and that its results would be obtained by playing a defense and teaching the men to follow the ball and to take advantage of their opponents' mistakes. It was adhered to this decision and enabled Princeton to make successful shooting without much semblance of an attack.

That the forward pass will have to be so indicated by the code makers which has been made by both Doctor Williams and Mr. Haughton, who were responsible for its retention, that it is impossible to believe. They insist that they supported it largely because the general football public demands some radical change and they thought that the improvement in the game would come from this. It is understood that it did not turn out as they apparently were willing to vote against it.

The abolition of the forward pass would not change the game in any important respect. What it would do would merely be to afford some relief to the team on the defense. The old style of secondary defense has been impossible with the forward pass. In some respects, therefore, the abolition of this play, which is not a ground game itself, would still make it harder for a team to gain ground by permitting an opponent to strengthen its defense.

There are two important changes which football men have in mind. One is the elimination of the forward pass, the other either a reduction of the distance to be gained in three downs from ten yards to five yards or permitting an extra down to gain this distance. A number of other suggestions have been made, but none has been considered as seriously as these mentioned.

It is the unanimous belief of nearly all the critics that the rules committee would have done much better if it had carried out its original intention before the season of 1909 and ruled the forward pass out of existence. The general football public is not acquainted with the narrow escape which the forward pass had in May, 1910. After the season of 1909 football coaches were very evenly divided upon the wisdom of retaining or abolishing the forward pass. At a meeting held in May at the University club, Philadelphia, after an all night discussion of the question it was voted to repeat the forward pass and to reduce the distance to be gained in three downs from 10 yards to eight yards. A loophole was left by the provision that at the adjourned meeting of the committee to be held one week later this body could reconsider the motion abolishing the forward pass.

## WOLGAST TO LEAVE HOSPITAL IN WEEK

LOS ANGELES, Dec. 4.—Ad Wolgast, champion lightweight pugilist, who was operated on for appendicitis, November 23, passed today, which might be termed the crisis of his illness, and from now on his recovery is expected to be rapid. Wolgast, it was predicted, would be out of the hospital within a week.

Manager Tom Jones, for the champion, said that as soon as Wolgast left the hospital he would be taken to Venice-by-the-Sea, Cal., where he would stay until spring.

If his condition then warranted, said Jones, he would go into the mountains for two or three months, after which he would resume his pugilistic activities.

"Freddie Welsh will be our first match," continued the manager.

## BAT GETS DRAW

JERSEYVILLE, Ind., Dec. 4.—Battling Nelson and Andy Bezenah of Cincinnati fought a 10-round draw here tonight. The battle was tough and fast from the start to the finish. The latter risked his once famous boxing tactics, but was not successful against Bezenah.

## PROPER TREATMENT FOR CATARRH

The first thing to be done in the treatment of Catarrh is to begin the use of a medicine that will have a direct effect on the source of the disease; in no other way can any curative progress be made. S. S. S. does this more quickly and satisfactorily than any other medicine. It is the most penetrating of all blood purifiers, thoroughly yet gently, expelling all catarrhal matter and impurities from the circulation, and by its fine tonic properties strengthening and building up the system in such healthy manner that it is enabled to overcome the depressing effects of Catarrh. Some local treatment is often desired to open the air passages of the head and nose and relieve the congestion and "tickling" of the throat, and other unpleasant symptoms. There are many helpful measures which may be resorted to, and there are others which may be harmful, and to aid Catarrh sufferers we have prepared a special treatise on the disease which will be of great value to any who suffer with this trouble. This book together with any medical advice free to all who write and request it. Take S. S. S. regularly and according to directions, and it will certainly remove the cause and cure your Catarrh. S. S. S. is sold at drug stores.

# WINCHESTER

## Loaded Black Powder Shells.

"Nublack" and "New Rival"

No black powder shells have so many strong points to recommend them as Winchester the red W brand. Their strong, uniform shooting qualities are due to the fact that the shells are made of high class tested materials, and loaded with the best brands of powder, shot and wadding. The loading is done by machines, which measure exactly the powder and shot, seat the wads with proper pressure and crimp the mouth of the shells evenly and firmly. The patented corrugated head, and the solid gas-tight, fire-proof base construction used in Winchester black powder shells, coupled with a system of loading, which gives invariable results, produces a quality of shells that is unsurpassed.

Insist Upon Having The Red W Brand.

## NEW YORK MARKET

[illegible]

## CHICAGO MARKET

CHICAGO, Dec. 4.—With the United States visible supply increased more than 1,000,000 bushels for the week, and with northwest receipts very heavy, wheat owners today became discouraged. Closing figures showed a decline of  $\frac{1}{2}$ ¢ to  $\frac{3}{4}$ ¢ per bushel. Corn declined  $\frac{1}{2}$ ¢ to  $\frac{3}{4}$ ¢ due to oats, which rose to  $\frac{1}{2}$ ¢, and provisions, with a drop of 12½¢ to 30¢.

Holdings of wheat found themselves confronted with the unwelcome announcement that the amount of the wheat in store in this country had reached a point where the total exceeded that of last year by 42,485,000 bushels. Arrivals at northwest markets gave no sign of stoppage in the further west, and the possibility of a serious winter weather in the Argentine and that country was credited with making more liberal offerings to Europe.

World shipments, too, were above weekly requirements. Clearances from the United States through the Canadian railroads, May ranged from 99½¢ to \$1.00, closing steady, but  $\frac{1}{2}$ ¢ down to 99¢.

In the corn crowd, larger speculators who had previously been inclined to sell at a profit, became discouraged. The grain was selling out to-day, May fluctuated from 62½¢ to 64½¢, closing steady at 63½¢. Oats, a loss of  $\frac{1}{2}$ ¢. Ash grades were no 2 yellow was not even offered.

Oats made was of a madder sort. Top and bottom figures touched for the May option proved to be 60½¢-61½¢ and 49½¢, with last sales  $\frac{1}{2}$ ¢ off, at 60½¢.

Other products suffered rather than

# CRIPPLE CREEK MINES

Special to The Gazette.  
CRIPPLE CREEK, Dec. 4.—The  
Union Leasing company, operating the  
Gold Sovereign mine on Bull hill, and  
the Husted shaft on the north end  
of the Gold Dollar Consolidated Mining  
company's estate on the eastern side  
of Beacon hill, made heavy production  
in November. Supt. C. G. Jackson re-  
ports 66 cars consigned to the various  
plants. Estimating 30 tons to the car  
and this estimate is conservative. The  
leasing company mined and shipped  
in excess of 2,000 tons. The ore was  
graded and ranged in value from  
to as high as \$45 to the ton, the high  
value obtaining from shipments from  
the Beacon hill property.

**Commonwealth M. & M. Co.**  
The call has issued for the annual  
stockholders meeting of the Common-  
wealth Mining and Milling company  
to be held at the mine on Beacon hill  
on Tuesday, December 12. At the  
meeting a board of five directors will  
be elected, and other necessary busi-  
ness will be transacted. Officers  
will probably be elected at a meeting  
of the directors to be held later. The  
Commonwealth property is under lease  
to Arthur Carduff and associates,  
who are mining and shipping a good  
average grade of ore.

**Montrose Active.**  
The Montrose mine on Hooked hill

Mining company was paid stockholders under date of December 1. The amount, \$20,000, is at the rate of 2 cents per

monthly dividends of 2 cents and one cent a dividend of 75 cents per share this year, a grand total of \$1,470,000 in 1911.

from San Francisco, Arizona  
Representative Brownlow  
first known as a labor man

In proceeding off v. for him  
uents. He had a colleague  
Gibson, who was a -ble to  
thing to speak of. "Brownlow  
and good-natured. Gibson v.  
and somewhat fearful.  
"Brownlow," said the little  
day, "I should like to know  
that you get so many people  
in your district. I can't  
thing for my district."  
"Gibson," and the big fellow  
down on the smaller man was  
seriousness, "If there was a  
your district that could per  
vice examination, you w  
in congress."
